Summary of Services

14. To provide an orderly and meaningful summary of the services rendered by Applicant during the Third Interim Fee Period, Applicant established, in accordance with the guidelines and its internal billing procedures, separate task codes. The following is a summary of the most significant services provided by Applicant during the Third Interim Fee Period.

15. Detailed time descriptions of the Applicant's professionals are included in each of the monthly fee statements attached hereto as Exhibits E, F, G and H.

Fiscal Plan and Operational Related Matters – 2,614.1 Hours;

\$1,462,549.00 Fees. First, the Applicant has included in this work stream all time specifically related to the development of the fiscal plan, including any amendments and/or revisions thereof. With respect to the fiscal plan, the Applicant worked directly with the Debtors and the Debtors' other advisors in the development of the Commonwealth's fiscal plan, including design, collecting key input sources, preparing supporting analyses and proposed measures and other documentation that supports the plan. The Applicant prepared analyses for, but not limited to, the following: i) macroeconomic outlook; ii) disaster relief funding and associated analyses; iii) operational trends and financial performance; iv) tax compliance and revenue measures; v) structural reforms; and vii) baseline revenues and expenses analyses. To support such analysis the Applicant incurred considerable time related to meetings and discussions with the Debtor and Debtor management. In addition

to the fiscal plan, the Applicant assisted with the development of an operational rightsizing plan for the Commonwealth of Puerto Rico. The operational rightsizing plan was prepared in direct consultation with representatives of the Commonwealth of Puerto Rico and required Applicant to participate in numerous planning sessions with Commonwealth personnel, as well as participate in meetings and on conference calls with representatives of individual government agencies and entities and their consultants including the Fiscal Agency and Financial Advisory Authority (“AAFAF”), Department of Health (“DoH”), Department of Education (“DoE”), Department of Corrections (“DoC”), Department of Public Safety (“DPS”), Treasury Department (“Hacienda”), Public Private Partnership Authority (“P3”), The Puerto Rico Planning Board, Health Insurance Administration of Puerto Rico (ASES) and Office of Management and Budget (“OMB”).

During this period, Applicant constantly interacted with FOMB advisors as multiple iterations of the fiscal plan were evaluated. This work entailed a myriad of economic and financial analyses in order to reconcile, bridge and understand major differences in key fiscal plan assumptions between various iterations of the fiscal plan. Key areas of focus are baseline, macroeconomic forecasts, and measures including tax reform, labor reform, incentive code and government rightsizing.

Second, the Applicant included in this work stream time incurred developing the fiscal plan implementation framework and preparing implementation plans with respect to all fiscal plan measures, structural reforms and other fiscal plan initiatives. The Applicant worked directly with the Debtors in the development of the implementation framework including: i.) implementation team organizational structure; ii.) implementation process; and iii.) coordination of implementation reporting packages required by the Financial and Oversight Management Board.

Third, included in this work stream is time incurred implementing, optimizing, and transitioning the Office of Contract and Procurement Compliance (the “OCPC”) at the Puerto Rico Electric Power Authority (the “PREPA”) as requested by the PROMESA board. Following hurricanes Irma and Maria, due to public concern with certain PREPA procurement actions, on November 8, 2017 Governor Ricardo Rosello issued Executive Order, EO-2017-066. The Executive Order delegated power to AAFAF to act as a receiver of PREPA’s procurement division’s compliance functions by reforming PREPA’s procedures for the procurement of goods and services, and establishing and administering enhanced procurement compliance oversight. To facilitate the receivership, the OCPC was established within PREPA, directed by an AAFAF executive with responsibility for (and expertise in) implementing a procurement best practices. Applicant incurred time providing project management office support for the OCPC at the direction of AAFAF, including, but not limited to, i) optimizing a programmatic management structure and reporting system for the OCPC procurement reviews, information requests, risk mitigation activities, and continuous assessment and

improvement initiatives; ii) optimizing and coordinating formal procedures for independent technical reviews of procurement contracts; iii) supervising a PREPA procurement process and disaster recovery controls risk assessment and developing a detailed gap closure plan; iv) providing support related to disaster recovery procedure improvements, training, and direct assistance on critical procurement issues; v) implementing process enhancements, automation, monitoring systems, and increasing sourcing options at PREPA; and vi) planning and executing transition of OCPC program management to PREPA internal resources.

Finally, Applicant has included in this work stream time incurred preparing for and participating in meetings and/or conference calls with the management of the Debtors, the Debtor's other advisors, the Governor, the Financial Management Oversight Board and the oversight board's professionals, and other parties-in-interest. The time incurred to prepare for and participate in these meetings and conference calls is essential to moving the case forward in a timely fashion as well as addressing and resolving matters with the various parties-in-interest.

- i. **Liquidity Related Matters – 21.8 Hours; \$10,210.50 Fees.** The Applicant has included in this work stream time related to assisting the Debtors to effectively monitor and manage the liquidity position. The Applicant incurred time associated with, but not limited to, the following: i) Preparing PREPA bank account balances and related summaries for the Debtor's monthly summary report for the Government of Puerto Rico and its instrumentalities, ii) engaging with Debtor management with respect to liquidity optimization, and iii) participating in meetings and/or on conference calls with other parties-in-interest and their advisors to discuss liquidity of the Debtor.
- ii. **Title III Matters – 353.1 Hours; \$157,536.50 Fees.** The Applicant incurred time assisting the Debtors and the Debtors' counsel in addressing numerous Title III related matters and tasks including, but not limited to; i) gathering and analyzing information required to be included in the creditor list amendment filing; ii) performing analyses in support of pleadings to be filed in Court; iii) developing and implementing a creditor call log to track inquiries and assisting the Debtor in resolving all inquiries in a timely manner; iv) commencing process to identify all executory contracts, including the non-residential real property leases; v) assisting the Debtor in analyzing the non-residential real property leases and making assumption and rejection decisions; vi) preparing for and attending court hearings, including mediation hearings; vii) reading and reviewing pleadings and orders filed with the Court; viii) addressing trade vendor inquiries and matters including assisting with the negotiation of certain vendor contracts; ix) addressing Title III related communications matters; x) preparing and filing monthly fee statements and quarterly fee applications in compliance with court orders and other guidelines; and xi) the development of the overall strategy and execution of restructuring the debt of the Commonwealth.

Additionally, the Applicant prepared for and participated in meetings and/or conference calls with personnel of the Debtors and the Debtors' advisors in order to complete the numerous Title III tasks described above. The Applicant believes that the time incurred preparing for and participating in these meetings and conference calls is essential to effectively and efficiently complete the assigned tasks.

- iii. **Other Matters – 662.2 Hours; \$372,027.50 Fees.** The Applicant has included time related to the following: i) preparing for and participating in meetings or on conference calls with the Debtors or the Debtors' advisors to discuss general matters (not included in specific time codes), ii) preparing for and participating in meetings or on conference calls with the Financial Oversight and Management Board and/or their advisors, the Unsecured Creditors Committee and/or their advisors, as well as other parties-in-interest and/or their advisors, iii) preparing for and participating in weekly working group meetings with representatives of McKinsey, iv) preparing reports, presentations and analyses requested by advisors of the Financial Oversight and Management Board, and, v) preparing for and attending meetings with other parties-in-interest.

The Applicant believes that the time incurred preparing for and participating in these meetings and/or conference calls is essential to moving the case forward in a timely fashion as well as addressing and resolving matters with the various parties-in-interest.

Applicant's Requested Compensation and Expenses Should be Allowed

16. Section 317 of PROMESA provides for interim compensation of professionals and incorporates the substantive standards of section 316 of PROMESA to govern the Court's award of such compensation. Section 316 of PROMESA provides that a court may award a professional employed by the debtor (in the debtor's sole discretion) "reasonable compensation for actual necessary services rendered . . . and reimbursement for actual, necessary expenses." Section 316 also sets forth the criteria for the award of such compensation and reimbursement:

In determining the amount of reasonable compensation to be awarded to a professional person, the court shall consider the nature, extent, and the value of such services, taking into account all relevant factors, including—

- (a) the time spent on such services;
- (b) the rates charged for such services;

- (c) whether the services were necessary to the administration of, or beneficial at the time at which the service was rendered toward the completion of, a case under this chapter;
- (d) whether the services were performed within a reasonable amount of time commensurate with the complexity, importance, and nature of the problem, issue, or task addressed;
- (e) with respect to a professional person, whether the person is board certified or otherwise has demonstrated skill and experience in the restructuring field; and
- (f) whether the compensation is reasonable based on the customary compensation charged by comparably skilled practitioners in cases other than cases under subchapter or Title 11.

17. Applicant respectfully submits that the amounts applied herein for professional services, at the time rendered, on behalf of the Debtors in this proceeding are fair and reasonable given: (i) the novelty and complexity of issues presented and results achieved; (ii) the time and labor required; (iii) the skills required to properly perform the advisory services; (iv) the time constraints imposed by the urgency of the case; (v) the experience, reputation and ability of the professionals rendering services; (vi) the efficient administration of the Debtors; and (vii) the avoidance of duplicative fees.

18. The time and labor expended by Applicant has been commensurate with the size, complexity and timeframe in which these cases proceeded. In rendering these services, Applicant made every effort to maximize the benefit to the Debtors and all parties-in-interest, to work effectively and efficiently with the other professionals employed in these cases and to leverage staff appropriately to minimize duplication of effort.

19. During the Third Interim Fee Period, Applicant provided a focused range of professional services as requested by the Debtors. Applicant respectfully submits that these services: (i) were necessary and beneficial to the successful and prompt administration of these

cases; and (ii) have been provided in a cost-efficient manner.

20. As detailed above, the services Applicant provided to the Debtors have conferred substantial benefit on Debtors and its overall operations.

21. The services that have been provided by Applicant during these proceedings have been wholly consistent with the Debtors' intentions and have been undertaken with specific direction and guidance from the Debtors.

22. These cases have necessitated the use of experienced advisors with specialized expertise in financial analysis to timely and thoroughly address the needs of the Debtors. The persons who have worked on these cases have demonstrated the skill in their respective areas of expertise required to provide the services necessary to assist the Debtors.

23. Based on the factors to be considered under sections 316 and 317 of the PROMESA, the Applicant believes that the services rendered during the Third Interim Fee Period on behalf of the Debtors are reasonable and the allowance of the requested fees and reimbursement of expenses is justified.

Conclusion

24. Applicant therefore requests an order: (i) approving interim compensation in the sum of \$2,002,323.50, (ii) approving interim reimbursement of out-of-pocket expenses in the sum of \$128,217.60, (iii) directing payment for all compensation and expenses for the Third Interim Fee Period and (iv) granting such other and further relief as may be just and proper.
